DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Title:

The title has been changed to: "Method of manufacturing a liquid crystal display device having spontaneous polarized liquid crystal, with heating and applied voltage".

End of examiner's amendment.

Allowable Subject Matter

2. Claims 8 and 10-12 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the method of claim 10, in particular the additional limitation that the control voltage for turning on the switching elements and the DC voltage are at equal potential. Claim 10 is therefore allowed, along with dependent claims 11 and 12.

Similarly, the prior art does not disclose the method of claim 8, having all the limitations of claim 10; claim 8 is therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
